

This architectural floor plan illustrates the layout of a stable complex, titled "IMPIANTO DI DISTRIBUZIONE PRINCIPALE A SERVIZIO DEGLI STALLI". The plan is organized into several functional zones:

- Stalls (STALLI):** Numbered stalls are arranged in rows. On the left, stalls 001 through 007 are labeled "LOCALE RENTR". In the center, stalls 008 through 015 are shown. On the right, stalls 016 through 021 are located. Some stalls are designated for "SOMMINISTRAZIONE" (feeding).
- Corridors (PASSAGGIO):** A central corridor system, highlighted with a green hatched pattern, provides access to the stalls. Other corridors are shown in white.
- Service Areas:**
 - LOCALE TECNICO:** A technical room located near the center-right.
 - LOCALE CONTATORI:** A room for meters, situated near the technical room.
 - ANTIBARNO:** A room for antiseptic treatment, located near the bottom right.
 - BAGNO:** Multiple bathroom facilities are distributed throughout the plan.
 - DOCCIA:** Shower areas are also indicated.
 - SPogliatoio:** Changing rooms are located near the entrance areas.
 - CORNER:** Two corner areas are marked at the bottom of the plan.
- Entrances and Exits:** The plan shows various doorways and access points, some marked with "ENTRATA" or "USCITA".
- Scale:** A scale bar at the bottom right indicates a scale of 1:50.

The plan uses various line styles and colors (green, red, yellow) to delineate different structural elements and functional zones. A dashed line on the right side of the plan indicates the boundary of the building.
